IT'S A BREAKFAST MEETING at BERRY JETZ CAFE

One very obvious quality our club members possess is the excellence with which we sing "Happy Birthday", usually to the embarrassment of those celebrating the event.

Phil looks as though he's enjoying it, not quite so sure about Dianne.

PRESIDENT'S REPORT - 29th September

Since joining this club I have often thought that if we kept records of the clubs activities throughout the year and then deposited them in our archives, it would be beneficial to both existing and future members.

Over the last couple of weeks it has become even more obvious to me that maintaining archives is an important issue.

At our 60th birthday party we were only able to enjoy the "Memories and Service " booklet that was produced because Col Hanbridge had collected many photos and records during his 44 years in the club and, with the help of others, provided enough information for the booklet to be produced and which is now recognized as an extremely valuable record of the club's history.

At last week's meeting our guest speaker, Christine Talbot, presented her beautiful book depicting the history of Shoalhaven Heads. This 200 page illustrated book took Christine 10 years to write and is an outstanding record of the history of her beloved Jerry Bailey (Shoalhaven Heads).

Without people like Col and Christine our history is lost forever.

I believe it is time for our club to seriously consider implementing an archive policy and either finding a volunteer or consider employing a company or individual that will establish an archive procedure that will preserve the history of our club.

To achieve this we need someone in the club to not necessarily do the work but to champion the cause. Any volunteers?

Terry.

Everest Assault for Polio Eradication

April 2020

Is this trip right for you?

- There are 16 days of strenuous trekking on this trip. You'll be trekking up to 8 hours a day and at altitudes over 5500m at times. We can't underestimate how important it is to be in excellent fitness and health, which means training in the lead up to your trip in order to be best prepared.
- The trekking lodges, known as teahouses, that we stay in on the trek are very simple with only basic facilities. Hot water may not always be available and may cost extra, as will access to electricity points for charging devices. Wifi is available at some locations, but connections may be poor.

Rotary put forth the challenge to the world that we could make history and eradicate Polio.

- Over the last 30 years, through partnerships, donations and awareness, there are now only 3 endemic countries, where Polio has not been eradicated.

Come walk with us and help us get this to **zero.**

World Toilet Day - Nov 19

(my favourite heading of all time)

More people have a mobile phone than have access to safely managed sanitation. The United Nations Sustainable Development Goal 6 has a target to eliminate open defecation and ensure everyone has access to sustainable sanitation services by 2030.

World Toilet Day, which is held annually on November 19, draws attention to the people without sanitation.

This year's theme is "Leaving No One Behind". You can obtain resources from the [World Toilet Day website](#) or

the Globalwaters.org [sanitation and hygiene resource](#) page.

Why it Matters (World Toilet Day cont'd)

Globally, one in three people lack a hygienic toilet in their homes. Sanitation and hygiene are critical for health, economic growth, personal security, and dignity, especially for women and girls. Investments in sanitation reduce health care costs and boost productivity, as time available for work and school increases. Every day, thousands of children around the world die from diarrheal disease caused by inadequate sanitation. And yet globally, [more people have access to a mobile phone than a toilet](#). Insufficient access to sanitation is estimated to have cost the global economy more than [\\$220 billion](#) in 2015.

Advice from an Old Farmer

Keep skunks and bankers at a distance.

Life is simpler when you plough around the stump.

A bumble bee is considerably faster than a John Deere tractor.

Words that soak into your ears are whispered... not yelled.

Meanness don't just happen overnight.

Forgive your enemies; it messes up their heads.

Do not corner something that you know is meaner than you.

It don't take a very big person to carry a grudge.

You cannot unsay a cruel word.

Every path has a few puddles.

When you wallow with pigs, expect to get dirty.

The best sermons are lived, not preached.

Most of the stuff people worry about ain't never gonna happen anyway.

Don't judge folks by their relatives.

Remember that silence is sometimes the best answer.

Live a good, honourable life... Then when you get older and think back, you'll enjoy it a second time.

Timing has a lot to do with the outcome of a Rain dance.

If you find yourself in a hole, the first thing to do is stop digging.

Sometimes you get, and sometimes you get got.

The biggest troublemaker you'll probably ever have to deal with, watches you from the mirror every morning.

Always drink upstream from the herd.

Good judgment comes from experience, and a lotta that comes from bad judgment.

Lettin' the cat outta the bag is a whole lot easier than puttin' it back in.

If you get to thinkin' you're a person of some influence, try ordering somebody else's dog around..

Here is a photo of me and the winners of the colouring competition from BSSFD. The kids at Berry Public School were so excited to receive their 1st 2nd and 3rd ribbons and ice cream vouchers from Berry Ice Creamery. Principal Bob Willets took the photo. PE Haseena PHF

The flare is unfortunate but the photo was too good not to include.(I'm not sufficiently clever to correct such things.)

THERE'S PROBABLY SOME TRUTH IN THIS

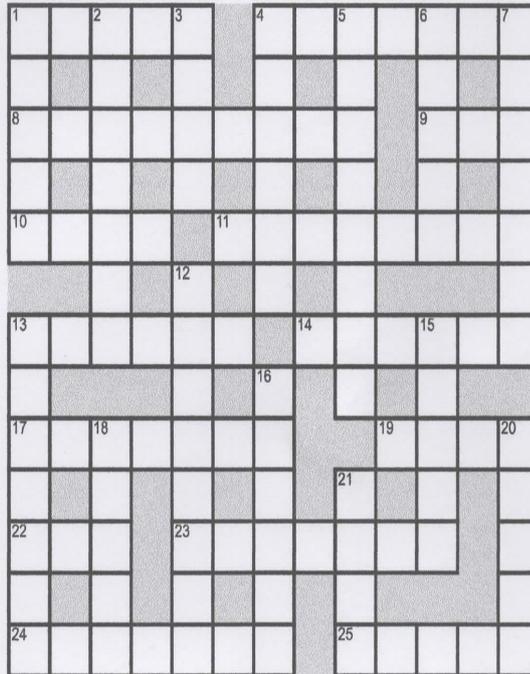

We think everyone in the community knows what we do, but the reality is so many know the name but not what we do. For those that do, there is still an element of the community which still sees the stuffy old Rotarian when they think Rotary .

We're a pretty unstuffy lot aren't we?

LATE 'BREAKING' NEWS

EIFFEL TOWER BEING UNLAWFULLY DISMANTLED

The mystery surrounding the current dismantling of the Eiffel Tower by stealth has recently been solved!

A little known group calling themselves Concerned Citizens of Paris (CCOPS), has admitted to tediously, and under cover of darkness, removing sections of this iconic structure over the recent months.

Now that it has been commented upon by tourist operators and others, the group has divulged its objective which is to protect another icon from damage. Due to the Notre Dame fire and ongoing protests in the streets, it was decided to move the tower permanently to a secure location (eg Arctic, Antarctic or Central Australia). In the meantime it will be stored in sections beneath the Louvre, amongst the foundations of the “Louvre Castle Keep” which were constructed in 1209.

The vacant area will be used for the construction of a Coffee Mall and as the French wouldn't know the difference between good coffee and dishwasher (the only worse coffee is American) it is anticipated Aussie Coffee vendors will take over en mass .
